

BUILT-IN BURNER WITHOUT LIP™

The decoflame® Built-in Manual Burner with Lip™ is part of the built-in models.

Its simple design makes it versatile and adaptable for a large variety of fireplace applications. The burner's length can be 400 - 500 - 600 - 700 - 800 - 900mm.

FEATURES

- Decoflame® brushed stainless steel manual burner
- Safety chamber
- Adjustable flame height
- No chimney required
- Safety chamber
- Shutter tool
- 3M Sponge
- Optional hardened, diamond clear glass

Decoflame highly recommends ordering and installing one or several glass screens in order to protect the flame from draught, while keeping it vivid.

The glass screen is available on request.

It can be mounted onto the surface in which the bio fireplace is installed. Built-in burner without lip **can not** be ordered with mounted glass on the burner.

Model A-B One low glass.

Model C, E, F Low glass. We recommend it as illustrated for the best result regarding design and operation.

Model D Two low glass or one full glass and one low glass.
